

# Entreprise de production de volaille et d'œufs

## Entreprise de production de volaille et d'œufs

À la recherche d'un partenaire d'investissement pour aider à développer l'activité existante de production de volaille et d'œufs. La société est engagée dans l'élevage et la transformation de poulet, de dinde, d'œufs et de produits carnés connexes. L'investissement proposé sera alloué à plusieurs initiatives clés visant à augmenter considérablement la capacité de production et les opérations en aval.

Plus précisément, le capital sera utilisé pour acquérir dans un premier temps des parcelles de terrain supplémentaires adaptées à un usage agricole. Sur ce terrain nouvellement acquis, nous construirons une nouvelle installation d'élevage de poulets de chair axée sur l'élevage de poulets et de dindes à des échelles commerciales. Parallèlement, des fonds d'investissement seront consacrés au développement d'un complexe ultramoderne de transformation et de conditionnement de la viande. Cette installation transformera ensuite le poulet, la dinde et les œufs crus en produits à valeur ajoutée comme des saucisses et d'autres produits préparés prêts à être distribués.

Les fonds permettront également de construire l'infrastructure de transport nécessaire pour déplacer efficacement les oiseaux vivants, les matières premières et les produits finis entre nos installations et vers les clients. Un nouveau centre de distribution en gros sera créé pour servir de plaque tournante pour l'exécution des commandes et les livraisons du dernier kilomètre.

Enfin, des investissements sont recherchés pour construire un canal de vente en ligne et les intégrations de chaîne d'approvisionnement correspondantes. Cela permettra à notre portefeuille de produits à base de volaille, d'œufs et de viande d'être répertorié et acheté directement sur les marchés et plateformes de commerce électronique utilisés par les principaux supermarchés et hypermarchés.

Dans l'ensemble, cette expansion vise à positionner l'entreprise comme l'un des principaux fournisseurs entièrement intégrés verticalement dans la région.
